FAQ'S

How and when can I book my vacation? Once you've selected your vacation option and we've confirmed receipt of your selection, you will receive the redeemable digital e-certificate via email within 3-7 business days. Directions on how to book your vacation are noted on the certificate. *All reservations are made by you directly with the cruise line, hotel or resort, not with Gift A Trip.*

What if I want a longer vacation? Or an upgraded room? Or bring my kids? All certificates are fully upgradeable. What this means is that you have the ability to extend your stay, upgrade to a higher room category, or add more guests to your reservation within any of the 6 vacation options available. All of this is done directly with the resort or cruise line when you're ready to reserve your vacation. They will collect any incremental balance due on the upgrade (in full) at that time.

When does the certificate expire? The Flex Trip Certificate expires on the "Expiration Date" noted on the face of this certificate, ONLY if you have not made a trip selection (no refund). However, once you've made your selection and chosen your specific trip certificate, the prevailing certificate expiration date applies. Be sure to review each "**Sample Certificate Terms & Conditions**" in the trip collection details for complete information.

After I've chosen my certificate, can I transfer it if I can't use it? Yes! That means if for whatever reason you are unable to use the chosen certificate, or would like to 're-gift' it to someone else, you may do so, as long as it has not yet been redeemed and booked for specific travel dates. Certificate cannot be resold, is non-refundable and cannot be exchanged for cash.

Can I take my certificate to a travel agent to book? No, these certificates can only be redeemed directly with the resort, hotel or cruise line via the special dedicated contact liaison noted on the certificate.

Are there many blackout dates? Very few. Most certificates exclude travel during the Christmas/New Year's holidays. Other exclusions may apply, which is why it's important to review the Terms & Conditions of each certificate option available before making your final selection.

Is airfare included? Unless specified, no. This allows you to choose your favorite the airline most convenient to your home city, cabin class you most prefer, or the opportunity to use those points you've been saving.
